Elemore Hall School

Headteacher: Richard Royle

Dear Parent/Carer

Pain-relief medication

School has been advised that we should offer the use of medication for mild pain-relief to pupils. This could be offered to pupils suffering from ailments such as toothache, headache etc.

Administration of pain-relief medication such as Paracetamol would of course be kept to essential use and at an appropriate dose. You would always be contacted if any pain-relief medication has been administered to your child and a record of its administration will be held in school.

If you would like pain relief medication to be offered to your child when necessary in school, would you please complete the permission slip below and return it to school.

If we do not hold a signed permission form on file in school, we will not be able to offer pain-relief medication to your child.

Yours sincerely

Richard Royle

Headteacher

Pain-relief medication permission form

I consent to my child _____
being offered pain-relief medication when necessary.

I confirm that they have no allergy to Paracetamol and that such pain relief medication has no adverse reaction with other medicines they are currently taking.

Signed: _____ Parent / Carer

Date: _____
